- Offered through the College of Chemistry

One graduating Berkeley engineer wrote, “I will remember my college experience as a journey where I grew not only in academics but also in the social realm. Where a teenage boy developed into a compassionate, ambitious and educated young man. Where my blood turned blue and gold. GO BEARS!”
At Berkeley Engineering, we’re making a world of difference. For more than 150 years, we’ve offered a rigorous, interdisciplinary education that prepares our graduates to make major contributions to the public good.

EDUCATING LEADERS
CREATING KNOWLEDGE
SERVING SOCIETY

Our cutting-edge research — in artificial intelligence, robotics, health, sustainable energy and urban infrastructure — is transforming the way people live. At our numerous research labs and maker spaces, students receive training and education, as well as gain hands-on experience in design, prototyping and fabrication.

OUR STUDENTS

29.6% Women engineering students (50% campus)
27.5% International engineering students (17% campus)
84% Entering freshmen who graduate within four years
9.2% Freshmen admit rate 2019-20
3,746 Undergraduate students
2,357 Graduate students
70+ Number of engineering student organizations and competition teams students can join to enrich their learning experience

OUR FACULTY

6 Turing Award recipients
78 National Academy of Engineering members
227 Active faculty
1,600+ Inventions by Berkeley Engineering researchers

OUR ALUMNI

70,000+ Number of Berkeley Engineering alumni throughout the world
$108,000 Median starting salary of 2019 undergraduates joining the workforce

Our students have a wealth of opportunities to participate in research, competitive teams, community outreach and more to enrich their learning experience and prepare them for professional roles. Through extracurricular activities and programs, our students develop skills in technology, entrepreneurship, leadership and communication. 28% of recent grads head to graduate school. Others find work in:

- Business 55%
- Industry 37%
- Government 5%
- Education 2%
