

# Berkeley Engineering

UNDERGRADUATE AT-A-GLANCE

Educating Leaders  
Creating Knowledge  
Serving Society

# HOW WE RANK

Berkeley Engineering is among the top engineering programs in the nation as ranked by *U.S. News & World Report*.

## UNDERGRADUATE ENGINEERING RANKED #3 (2023)

- 1st Civil engineering
- 1st Computer science
- 1st Environmental engineering
- 3rd Computer engineering
- 3rd Electrical engineering
- 3rd Materials engineering
- 4th Chemical engineering \*
- 5th Mechanical engineering
- 6th Industrial engineering
- 7th Bioengineering
- 16th Aerospace engineering

## GRADUATE ENGINEERING RANKED #3 (2023)

- 1st Civil engineering
- 1st Computer science
- 1st Environmental engineering
- 2nd Chemical engineering \*
- 2nd Computer engineering
- 2nd Electrical engineering
- 2nd Materials engineering
- 3rd Industrial engineering
- 3rd Mechanical engineering
- 3rd Nuclear engineering
- 4th Bioengineering

\* Offered through the College of Chemistry.

Engineering science/engineering physics undergraduate programs last ranked by USN&WR in 2016; nuclear engineering last ranked in 2004.

## OUR ENGINEERING STUDENTS | 4,215 undergraduates

- 30.94% Female students
- 19.81% URM students
- 11.96% International students
- 27.67% First-generation college students
- 913 Pell Grant recipients
- 7.1% First-year admit rate 2022-23
- 65+ # of engineering student organizations and competition teams that students can join to enrich their learning experience

Entering freshmen graduate within 6 years

## OUR FACULTY | 242 faculty

- 6 Turing Award recipients
- 33% Female new faculty hires in 2022
- 107 Endowed chairs and distinguished faculty
- 1,979 Inventions by Berkeley Engineering researchers
- 26 Distinguished Teaching Awards

## OUR ALUMNI | 77,217 alumni

- 117 Countries
- 179 Members of the National Academy of Engineering

One-fourth of new graduates headed to graduate school in 2021. Others found work in:

- 59% Business
- 30% Industry
- 5% Education
- 3% Government
- 3% Non-profit

\$120,000

Median starting salary of 2022 undergraduates joining the workforce

# UNDERGRADUATE MAJORS & MINORS

[engineering.berkeley.edu/majors](https://engineering.berkeley.edu/majors)

## Aerospace Engineering *\*Open to transfers in 2024*

[aero.berkeley.edu](https://aero.berkeley.edu) | ✉ [aero@berkeley.edu](mailto:aero@berkeley.edu)

Major: aerospace engineering

Minor: aerospace engineering

## Bioengineering

[bioeng.berkeley.edu](https://bioeng.berkeley.edu) | ✉ [bioeng@berkeley.edu](mailto:bioeng@berkeley.edu)

Major: bioengineering

Minor: bioengineering

## Civil & Environmental Engineering

[ce.berkeley.edu](https://ce.berkeley.edu) | ✉ [aao@ce.berkeley.edu](mailto:aao@ce.berkeley.edu)

Major: civil engineering

Minors: environmental engineering; geoengineering; structural engineering

## Electrical Engineering & Computer Sciences

[eecs.berkeley.edu](https://eecs.berkeley.edu) | ✉ [prospective-ugradstudents@eecs.berkeley.edu](mailto:prospective-ugradstudents@eecs.berkeley.edu)

Major: electrical engineering & computer sciences

Minors: computer science; electrical engineering & computer sciences; electronic intelligent systems

## Engineering Science

[engineering-science.berkeley.edu](https://engineering-science.berkeley.edu) | ✉ [engineering-science@berkeley.edu](mailto:engineering-science@berkeley.edu)

Majors: energy engineering; engineering math & statistics;

engineering physics; environmental engineering science

Minor: energy engineering

## Industrial Engineering & Operations Research

[ieor.berkeley.edu](https://ieor.berkeley.edu) | ✉ [ieor-student-services@berkeley.edu](mailto:ieor-student-services@berkeley.edu)

Major: industrial engineering & operations research

Minor: industrial engineering & operations research

## Materials Science & Engineering

[mse.berkeley.edu](https://mse.berkeley.edu) | ✉ [mse@berkeley.edu](mailto:mse@berkeley.edu)

Major: materials science & engineering

Minor: materials science & engineering

## Mechanical Engineering

[me.berkeley.edu](https://me.berkeley.edu) | ✉ [civello@berkeley.edu](mailto:civello@berkeley.edu)

Major: mechanical engineering

Minor: mechanical engineering

## Nuclear Engineering

[nuc.berkeley.edu](https://nuc.berkeley.edu) | ✉ [kirstenw@berkeley.edu](mailto:kirstenw@berkeley.edu)

Major: nuclear engineering

Minor: nuclear engineering

## Joint Majors

[engineering.berkeley.edu/jointmajors](https://engineering.berkeley.edu/jointmajors)

- » bioengineering/materials science & engineering
- » electrical engineering & computer sciences /materials science & engineering
- » electrical engineering & computer sciences /nuclear engineering
- » materials science & engineering/mechanical engineering
- » materials science & engineering/nuclear engineering
- » mechanical engineering/nuclear engineering

## Management, Entrepreneurship, & Technology (M.E.T.)

[met.berkeley.edu](https://met.berkeley.edu) | ✉ [met@berkeley.edu](mailto:met@berkeley.edu)

Prospective freshmen may apply directly to this program.

- » engineering undeclared + business
- » bioengineering + business
- » civil engineering + business
- » electrical engineering & computer sciences + business
- » industrial engineering & operations research + business
- » materials science & engineering + business
- » mechanical engineering + business

# ADVISING & COUNSELING

[engineering.berkeley.edu/advising](http://engineering.berkeley.edu/advising)

Berkeley Engineering offers a range of advising options to help you thrive both academically and personally. We want to make your time here as successful and rewarding as possible.

Upon admission, every Berkeley Engineering student is assigned an academic adviser based on their major. Our Engineering Student Services advisers are available to help with everything related to your undergraduate education. They answer questions about degree and graduation requirements, clarify academic policies and procedures, assist with course selection and help address challenges you may be facing in your studies. They can also suggest enrichment opportunities or make referrals to campus resources.

## We have advisers and counseling onsite for:

- » Peer advising
- » Personal counseling
- » Career advising
- » Graduate school advising
- » Undergraduate research advising

# ACADEMIC SUPPORT

[engineering.berkeley.edu/caee](http://engineering.berkeley.edu/caee)

The Center for Access to Engineering Excellence (CAEE) provides free tutoring in most core engineering courses. Our tutors are upper-division engineering students who have been successful in the courses they tutor and are great at breaking down complex, technical information.

In addition to having a strong grasp of the concepts, our tutors can help students understand how and where this content will continue to assist them throughout their engineering curriculum. Tutors are available each semester.

CAEE also provides workshops and events throughout the year that provide training and insight on:

- » Professional development
- » Career training
- » Leadership
- » Community building
- » Health & wellness

Meeting students where they are, whether it is outside, online or in-person. (Photos by Adam Lau)

# UNDERGRADUATE PROGRAMS

[engineering.berkeley.edu/programs](https://engineering.berkeley.edu/programs)

## Pre-Engineering Program

**(PREP)** gives incoming first-year students a competitive edge by jump-starting their Berkeley Engineering experience through participation in the PREP Summer Institute.

## Transfer Pre-Engineering

**Program (T-PREP)** offers incoming transfer students an intensive 18-day immersive summer experience to gain a head start in making the transition from community college.

## Mentoring Programs

are one year and help current undergraduates develop relationships with other students, alumni and faculty; create academic support networks; and leverage opportunities for professional development. There are also specialized programs for first-generation students as well as junior transfers.

## Blue & Gold Certification

is a joint effort of the Engineering Student Council and ESS for undergraduate organizations. It is centered around the core values of equity and inclusion, safety, integrity, engagement and transparency. Certified groups share these values, are UC Berkeley-registered student organizations and have completed required trainings.

## Transfer Success Ambassador Program

extends a tradition of peer support in the Berkeley Engineering transfer community with a team of ambassadors who meet with their fellow transfer students and collaborate on workshops, events and outreach efforts.

## Engineering Scholars Program

is available for PREP and PREP-eligible students in bioengineering, civil engineering or mechanical engineering. The program provides support for core major engineering courses and covers topics including professional development and how to get involved in research.

## LeaderShape Institute

is a six-day educational experience. Sessions include such exercises as team-building, a ropes course, charting visions for a brighter future and exploring ethical issues. Panel discussions feature business and community leaders.

## Wellness

for our students is at the heart of Berkeley Engineering, so we foster a community that supports your success and helps you thrive. We have a strong portfolio of programs and initiatives to advance equity and inclusion, as well as resources, apps and services to keep you focused and productive.

# MYTHS VS FACTS

“I won’t be able to talk to an adviser in person.”

Academic and peer advisers are available for appointments and drop-in advising Monday through Friday and are easily accessible.

“There are no undergraduate research opportunities.”

As a Tier I research institution, we have more undergraduate research opportunities than the average college campus.

“Classes are too big and you don’t get to know your instructors.”

71.8% of undergraduate classes have fewer than 30 students. There is a 20:1 student-to-faculty ratio.

“Engineering students don’t have time to study abroad.”

Our students are encouraged to study abroad and can find an international program that fits within their academic plans.

“It’s impossible to graduate in four years.”

82.3% of undergraduates get their engineering degrees in four years. (94.95% within six years.)

“It’s easy to change majors in the College of Engineering.”

All majors require a minimum GPA, and some majors require completion of certain courses. Transfer students are not eligible to change majors.

## ONLINE RESOURCES

### Exams

Some requirements can be satisfied with Advanced Placement (AP), International Baccalaureate (IB), A-Level, and transfer credit. AP, IB or A-Level exams can satisfy no more than two of the required six courses for the Humanities/Social Sciences requirement. There is no limit to the number of exams that can be used to satisfy technical requirements. You can see if your exam fulfills a requirement: [engineering.berkeley.edu/exams](https://engineering.berkeley.edu/exams).

### Co-curricular learning

Much of what makes Berkeley Engineering unique is the abundance of ways our students can learn and grow. Each of the activities below offers unique opportunities to integrate material learned in the classroom with a chance to develop character and leadership skills. National research has shown that students who are involved outside the classroom have higher GPAs, are more satisfied with their college experience, develop valuable leadership and interpersonal skills, manage their time better and hone marketable skills sought by employers (e.g., teamwork, creativity, time management).

### Admissions

We are fully invested in preparing our future engineers to meet today’s challenges with creativity and innovation. There has never been a better time to be an engineer. Get ready to apply to be a Berkeley Engineer and get detailed information about Berkeley admissions.
